

WHO ARE WE?

MSI Viking is your total metrology solution. We're committed to providing complete support, from sourcing superior equipment to maintaining it through calibration and repair.

With over 50 years experience, you can count on us to find the exact solution to fit your needs—even if we have to create it for you.

PRECISION MEASURING EQUIPMENT

- 3D Scanning Systems
- Air Gaging Systems
- Coordinate Measuring Machines
- CT and X-Ray Measuring Systems
- Custom Design & Build
- Digital Scales and DRO Systems
- Electronic Gaging Systems
- Force Measurement Systems
- Form Measuring Systems
- Gage Blocks
- Hardness Testers
- Laser Measuring Systems
- Length Measuring Systems
- Microscopes
- Optical Comparators
- Precision Hand Tools
- Precision Surface Plates
- Shaft Measuring Systems
- SPC & Data Management
- Surface & Contour Measuring Systems
- Torque Measurement Systems
- Vision Measuring Systems
- & more

REPRESENTING OVER 100 OF THE WORLD'S LEADING BRANDS INCLUDING:

Calibration

MSI Viking offers an extensive scope of ISO 17025 Accredited and ISO 9001:2015 Certified calibration services. Choose on-site service, local pick-up, or ship your equipment to us for calibration in our climate-controlled labs.

- Dimensional
- Electronics
- Thermodynamics
- Mechanical
- Mass
- Air & Fluid Dynamics

Repair

Ask about our comprehensive repair center for all your precision tools and gages. Our ISO 17025 Accredited service team has earned its reputation as an industry leader, performing exemplary repairs on a multitude of precision equipment over the past 30 years.

We are factory certified and authorized by most major brands, with a specialization in dimensional and electronic measuring equipment.

Contract Inspection

Our applications engineers deliver the highest levels of precision and quality using the same sophisticated metrology systems we service and sell. Schedule ISO 17025 Accredited and 9001:2015 Certified inspection services in our labs or on-site at your facility.

- First Article Inspection
- Production Part Approval Process (PPAP)
- Fixture Qualification
- Reverse Engineering
- Part Programming
- And more...

Custom Solutions

Some situations call for a solution that doesn't readily exist. MSI Viking has a team of engineers to develop custom solutions for your needs. Whether you need minor modifications to existing equipment or new equipment to work within your existing setup, we can make it happen.

Training Classes

MSI Viking offers a full schedule of training classes taught by NIST Accredited instructors. Join us at our Duncan, SC facility for popular courses including GD&T and Gage Calibration, or ask about our custom on-site classes tailored to your team's needs.
